

VANTAGE POINT™

Car Wash Management System

Leveraging a broad portfolio of advanced, world-class technologies and best-in-class partners, Vantage Point delivers an easy to use, end to end information and control solution that helps operators to better control cash, manage information, optimize revenue generation and develop customer loyalty.

Vantage Point integrates the best individual retail car wash hardware and software pieces into a comprehensive Information and Control Network “Back Bone” that includes on site implementation and local after market service.

- Wash Soft® management software
- Unitec® automated payment terminals
- Kesseltronics® rTC controller

Vantage Point is aligned with a nation-wide distributor network that provides local project consultation, installation and aftermarket support.

The industry's best
management and control system for
Express and Flex-serve car washes

Vantage Point™ Key Features

Easy Set Ups – easy to learn and change w/o having to call and wait for the help desk

Reports Your Way – customize reports by checking the box next to what you want on the report and hit enter

Multi-Payment Options – cash, credit or code including high speed credit card clearing

Web Access to Controller – for unparalleled remote programming and trouble shooting

Local Service Support – When (not if) you go down, you are not alone trying to fix your controller or payheads over the phone

Simple to Understand and Use – Designed by leading operators and distributors to provide only what you need to be successful

Multi-Site Data Synchronization – When you add sites we grow with you allowing summary reports and loyalty redemption at any site
